Haruka with J-Rock Concert and Panel at Anime Messe Berlin 2016

Japanese singer and songwriter Haruka makes her first appearance in Germany. Starting her career in 2008 as a singer for the anime Blue Dragon, she grew up to be an artist who runs her own label and travels across oceans to share her music with the world. Don't miss out the opportunity to see her live and also meet her in person for autographs and photos. Let's Rock!

Haruka

She debuted in 2008 with Pony Canyon, one of the biggest labels in Japan. With their title "Mune ni Kibō o" (eng. Keep Hope In Your Heart) she has won a great reputation in Japan. One reason was the fact that the title was used as the second opening of the known anime Blue Dragon.

Since 2013, the J-Rock singer and songwriter released her self-written songs under their own label "Club Disorder". On 29 October 2014 they released their latest album "Anthems".
